Greetings from CIEP!

With an increase in enrollment and special programs, the CIEP is off to a busy start in 2014! Since January, we have welcomed over 60 new students to the program. CIEP has also hosted individuals from Kyungpook National University (KNU) and Minas Gerais who studied in two separate special programs. One program was designed for teachers, and another for students studying specifically in the STEM fields. Our program is increasing in diversity and enrollment, while maintaining the same high quality service to all students. In this white paper, you will find information regarding the CIEP special programs, the announcement of the CIEP Fall 2014 Tuition Scholarship, and additional information about our program. As our partners, representatives and agents, we hope that you find these updates useful to you. If there is anything we can do to help, do not hesitate to contact us! We look forward to working with you again soon!
