

# Air and Water Quality PD Opportunity!!

- Iowa middle and high school teachers
- Will accept only 15 teachers
- Stipend
- Graduate Credit available
- Funded by the EPA's Environmental Education program

Opportunity to develop locally focused, community based air and water quality projects.

Tours of facilities in several communities in Iowa with companies who will share the role that air and water quality plays in their industry and careers.

Increase environmental and conservation literacy, stewardship and the understanding of environmental science careers in Iowa.

Students will be involved in real world, hands-on, inquiry based projects in the classroom and in their communities.

## **Year long program:**

- Content workshop:  
June 24-28, 2019
- Tours - 3 days, week  
of July 22, 2019
- ZOOM meetings  
throughout the  
academic 2019-20 year
- Present projects at  
UNI's Spotlight Day,  
March 2020
