Macintosh

This introduction to the Macintosh computer will teach you the basic skills that you will need to work effectively with your computer. It is designed so that you read the text and then follow the directions in the practice part of each section.

**Hands-On**

**Macintosh Tutorial**

The first activity is to access the tutorial provided on your Macintosh computer.

1a. First place your index finger on the trackpad. Gently stroke your finger from the front left-hand corner to the back right-hand corner of the track pad. Continue this action until your cursor or pointer is over the ? (question mark) in the top right hand corner of your screen. Click and continue to depress the trackpad button. A pop-up menu will appear.

2a. Continuing to depress the trackpad button, drag the pointer down the list until the Macintosh Tutorial is highlighted. Release the trackpad button and the tutorial will appear in the lower left-hand corner of the screen.

3a. Move the pointer to Start the Tutorial and click the trackpad button.
