

~~Q~~ualities Of An Effective Technology Coach

Activity Instructions

Iowa teachers who are participants in the Iowa - U S WEST Teacher Technology Project must take on the role of technology coaches as they instruct the 10 additional teachers. Becoming a technology coach will be a different role for many of the teachers. Learning how to use technology is becoming a common activity for many teachers with those teachers learning the same products to apply to their specific classrooms. Because teachers are used to being isolated in their classrooms and in control of the classroom format and content, they may have problems asking for help. There are certain qualities that teachers should be aware of to become effective technology coaches in their schools. What are some of those qualities?
