

2018

# Hari Shankar Lecture

*Presented by the Department of Mathematics  
University of Northern Iowa*

**BEAUTIFUL,  
DEEP, AND  
INTERESTING:  
SURPRISES IN  
ELEMENTARY MATH**

*Sybilla Beckmann*

University of Georgia

In this presentation, we will take an excursion through some of the connections and subtleties that make elementary math surprisingly beautiful, deep, and interesting. We'll see that even pre-school and elementary school math is not so elementary when you look at it closely.

**Friday, April 6**

7:30 PM

Lantz Auditorium,  
McCollum Science Hall

**University of Northern Iowa**
