

## CONFIGURING MARSEDIT TO ACCESS YOUR UNI WEBLOG

1. Launch MarsEdit Software. The Getting Started window will appear. Enter your weblog name and URL. Click OK. If you do not have a weblog, contact ITS with questions.

2. Once in the main window, select your weblog in the Weblogs drawer. Click the Edit button at the bottom of the drawer.

The settings window will appear. Click on the software popup and scroll down to Movable Type. RPC URL is <http://weblogs.uni.edu/mt/mt-xmlrpc.cgi>

The screenshot shows a settings window titled "umprweb". At the top, there are four tabs: "System", "Defaults", "Posting", and "Pings". The "System" tab is currently selected. Below the tabs, there are several input fields and controls:

- Name:** A text field containing "umprweb".
- Home URL:** A text field containing "http://weblogs.uni.edu/umprweb/".
- Software:** A dropdown menu showing "Movable Type".
- RPC URL:** A text field containing "http://weblogs.uni.edu/mt/mt-xmlrpc.cgi".
- Blog ID:** An empty text field.
- Autofill:** A button located below the Blog ID field.
- Number of posts to download:** A spinner control set to "10".
- Buttons:** "Cancel" and "OK" buttons are located at the bottom right of the window.

Your BlogID will be a one or two digit numeral. To find your BlogID, log into your blog using your browser. At the top of the page, in the address, the number can be found after `blog_id=`

When the correct information is entered, click OK.

3. To register MarsEdit, choose License in the MarsEdit menu, as below.

The following window will appear. Obtain licensing information in the document *MarsEdit Licensing Key Information*, which can be found at <http://www.uni.edu/its/us/faqs/weblogs/>

4. To download recent posts, click the Refresh button in the toolbar of the main window. MarsEdit will ask you for your username and password. You can store the password in your keychain. (If the password is not stored in your keychain, MarsEdit will forget the password every time you quit.)

Enter username and password  
for weblog "umprweb."
